

Animal Protocol Management, Simplified

Manage the entire lifecycle of IACUC protocols from authorship to end of study

Cayuse IACUC Protocol Management (formerly eSirius IACUC) enables:

SHORTER PROTOCOL APPROVAL TIME

- 100% online review and approval for the IACUC office and committee members
- Online meeting agenda builds itself, allows protocol editing, previewing, and reviewing during the meeting, and auto-generates printable minutes

ALIGNMENT OF RESEARCH ENTERPRISE COMMUNITY

- Researchers, delegates, IACUC Office staff, and committee members all log in to the same system for a shared user experience

TRANSPARENCY FOR RESEARCHERS

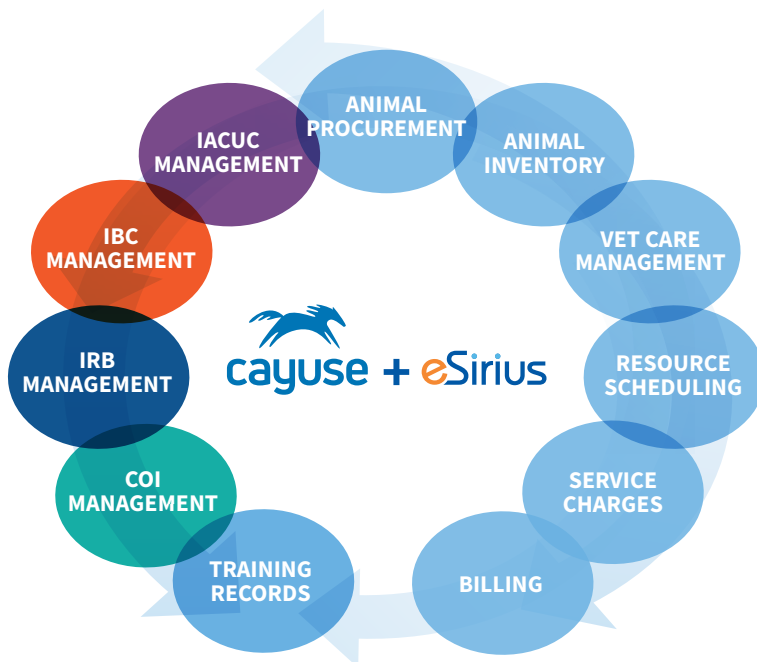

- Homepage dashboards show all critical workflow information so researchers know the status of their protocols at all times

IMPROVED PROTOCOL COMPLIANCE

- Filter-driven USDA and AAALAC reports
- Automatic reminders and dashboards for continuation and De Novo reviews
- Naturally integrated with Cayuse IBC application

GREATER OVERALL SATISFACTION OF USERS

- Intuitive and sleek user experience, combined with convenience and flexibility, makes for more satisfied end-users
